

## Resume Analysis

Jordan Syring Resume(3).pdf.pdf uploaded by Jordan Syring on January 8th at 5:40 pm

### General Overview

#### Points

0	Lost	Amount	Points
-8	Flags	0	0
-8	Improvements	8	-8

### Breakdown

Analysis	Your score	Highest score in your division
General	70	80
Formatting	60	70
Content	105	250

### Content

IMPROVEMENTS 8

1	Type	Category	Recommendation
	Improvement	Content	<p>Inconsistent bullet point punctuation Quinn has detected inconsistent punctuation in your bullets. Consistency is key for resumes so be sure you are using the same punctuation throughout. Whether you use periods to end your bullets or have no punctuation at all, it will work. Just be sure it's the same.</p>

2	Type	Category	Recommendation
	Improvement	Content	<p>Skill suggestion Technical skills are an essential part of a resume. In order for an ATS to recognize a technical skill, they need to be specific. Rather than writing "Word," you would need to write "Microsoft Word" for the system to recognize this as a tool or skill you know. Example technical skills  <span style="border: 1px solid green; padding: 2px;">statistica</span> <span style="border: 1px solid green; padding: 2px;">collections</span> <span style="border: 1px solid green; padding: 2px;">gel electrophoresis</span> <span style="border: 1px solid green; padding: 2px;">seasoning</span> <span style="border: 1px solid green; padding: 2px;">skill</span> <span style="border: 1px solid green; padding: 2px;">electrophoresis</span> <span style="border: 1px solid green; padding: 2px;">statistics</span> <span style="border: 1px solid green; padding: 2px;">rexcel</span> <span style="border: 1px solid green; padding: 2px;">test interpretation</span>  <span style="border: 1px solid green; padding: 2px;">professional disc</span></p>

#### Resume Highlights

Relevant Course Work: General Chemistry I & II, General Biology I & II, Organic Chemistry, Genetics, Calculus I-II-III, Analytical Chemistry

#### EXPERTISE

**Laboratory and Technical Skills:** PCR, Gel Electrophoreses, Pipetting & Solution Preparation, NMR & IR Spectroscopy, Laboratory Data Collection & Error Analysis

3

Type	Category	Recommendation
Improvement	Content	<p>Technical skills missing You should include more technical skills that are relevant to your major or the industry you are seeking. Every job requires a different skill set and employers are definitely looking for them on your resume.</p> <p>Try this sentence format: Accomplished X by doing [technical skill].</p> <p>Examples:</p> <ul style="list-style-type: none"> <li>- Resolved customer tools to facilitate the use of the gym and increased athlete group chemistry by 30%</li> <li>- Amplified threat detection by 60% by integrating behavioral analytics and AI-driven tools like Suricata into existing security workflows.</li> <li>- Designed and implemented efficiency systems to manage vehicle logistics for \$3M+ worth of cars in high-paced environments, ensuring operational excellence demonstrating precision, communication and strong problem-solving skills</li> </ul> <p>Example technical skills</p> <p>e-learning translations facilitation chemistry workflows behavioral analytics analytics threat detection operational excellence logistics</p>

Resume Highlights

**General Chemistry Mentor | University of Tampa | August 2025 – Present**

- Assisted undergraduate students in General Chemistry I & II with problem-solving, stoichiometry, equilibrium, and thermodynamics
- **Facilitated one-on-one and small group learning by translating complex chemical concepts into clear, understandable explanations**
- Supported student exam preparation by applying quantitative chemistry techniques, including stoichiometric calculations, equilibrium analysis, and thermodynamic problem-solving

Improvement	Content	<p>Technical skills missing You should include more technical skills that are relevant to your major or the industry you are seeking. Every job requires a different skill set and employers are definitely looking for them on your resume.</p> <p>Try this sentence format: Accomplished X by doing [technical skill].</p> <p>Examples:</p> <ul style="list-style-type: none"> <li>- Advised use of SMILES string for chemistry Alt-Text, which, on implementation, decreased the content development time by 70%.</li> <li>- Resolved customer tools to facilitate the use of the gym and increased athlete group chemistry by 30%</li> <li>- Performed in-depth web application security testing with Burp Suite, enhancing detection of XSS, SQLi, and CSRF vulnerabilities by 50%.</li> </ul> <p>Example technical skills</p> <p>mathematica mathematical modeling experimentation content development chemistry web application security testing security testing web application security application security testing burp suite application security</p>

Resume Highlights

**Physical & Chemistry Laboratory Projects | August 2024 – Present**

- Conducted controlled laboratory experiments involving data collection, statistical analysis, and error evaluation
- **Analyzed experimental results using mathematical models and graphical methods**
- Prepared formal lab reports following scientific standards

**Data & Analysis Projects (Coursework)**

5

Type	Category	Recommendation
Improvement	Content	<p>Essential skills missing You should include an essential skill that is powerful for the bullet point description and is relevant to your major or the industry you are seeking. Essential skills are most powerful when written as action verbs and can make your resume more dynamic. Try writing it as an achievement-based skill.</p> <p>Examples:</p> <ul style="list-style-type: none"> <li>- Advised use of SMILES string for chemistry Alt-Text, which, on implementation, decreased the content development time by 70%.</li> <li>- Comprised marketing documents and created associations with financial institutions to actively obtain \$35,000,000 in loans on an ongoing basis for the purchase of additional commercial properties in 2022 and 2023</li> <li>- Resolved customer tools to facilitate the use of the gym and increased athlete group chemistry by 30%</li> </ul> <p>Example essential skills</p> <p>reported standardized advised created resolved facilitated</p>

Resume Highlights

**Physical & Chemistry Laboratory Projects | August 2024 – Present**

- Conducted controlled laboratory experiments involving data collection, statistical analysis, and error evaluation
- **Analyzed experimental results using mathematical models and graphical methods**
- **Prepared formal lab reports following scientific standards**

**Data & Analysis Projects (Coursework)**

- Applied calculus and statistical concepts to analyze biological datasets
- Interpreted trends and variability in experimental results

## SUMMARY

Aspiring biochemist with a strong analytical and mathematical background, experienced in laboratory techniques and data analysis. Seeking undergraduate opportunities to apply quantitative reasoning and experimental skills in a scientific research setting.

## EDUCATION

Bachelor of Science in Biochemistry | The University of Tampa | May 2028

Minor Mathematics

GPA: 3.84

Honors: Dean's List (2025 Spring, 2025 Fall)

Relevant Course Work: General Chemistry I & II, General Biology I & II, Organic Chemistry, Genetics, Calculus I-II-III, Analytical Chemistry

## EXPERTISE

**Laboratory and Technical Skills:** PCR, Gel Electrophoreses, Pipetting & Solution Preparation, NMR & IR Spectroscopy, Laboratory Data Collection & Error Analysis

**Data & Software:** Microsoft Excel, Python, ImageJ, Statistical Reasoning & Data Interpretation

**Professional Skills:** Problem Solving, Technical Writing, Attention to Detail, Time Management

## EXPERIENCE

### General Chemistry Mentor | University of Tampa | August 2025 – Present

- Assisted undergraduate students in General Chemistry I & II with problem-solving, stoichiometry, equilibrium, and thermodynamics
- Facilitated one-on-one and small group learning by translating complex chemical concepts into clear, understandable explanations
- Supported student exam preparation by applying quantitative chemistry techniques, including stoichiometric calculations, equilibrium analysis, and thermodynamic problem-solving

### Physical & Chemistry Laboratory Projects | August 2024 – Present

- Conducted controlled laboratory experiments involving data collection, statistical analysis, and error evaluation
- Analyzed experimental results using mathematical models and graphical methods
- Prepared formal lab reports following scientific standards

### Data & Analysis Projects (Coursework)

- Applied calculus and statistical concepts to analyze biological datasets
- Interpreted trends and variability in experimental results

### Volunteer | Matlacha Hookers – Matlacha, FL | October 2022 – August 2024

- Assisted with post-hurricane cleanup, debris removal, and community restoration projects
- Contributed to restoration of local facilities and community spaces following storm damage
- Supported organization-led recovery events and volunteer initiatives

## ACTIVITIES & INVOLVEMENT

General Chemistry Peer Mentoring, American Society for Biochemistry and Molecular Biology (ASBMB) Student Chapter Member, Independent Study in Programming and Data Analysis
